Make a Leap in Your Leadership

Experience the widely-acclaimed, high impact experiential workshop that introduces Barry Oshry's key insights on power and leadership, at a fraction of the normal price

Tuesday 28 February 2012, Park Inn Radisson, York, 10.00am – 5.00pm

Based on 40 years of study, Barry Oshry has given us an invaluable perspective on the systems at play in organisational life. Whatever the sector, or the scale of organisation, his insights apply. The Organisation Workshop is designed to enable you to see these system dynamics in action. Worldwide, it has opened eyes to the hidden patterns that scupper working relationships and mean we are much less effective than we could be. It will open yours, too.

It's not so much role-play, but real play. A visceral learning experience leaving a deep impression, as many previous participants have testified. Many benefits flow from the awareness it raises. Not least you will be able to release your own and others untapped leadership, and promote working across silos and between levels. More fundamentally, it will start to bring about what Oshry calls a shift in being without which all the skill-training in the world will not help.

At the greatly reduced rate we've negotiated, this is definitely an opportunity not to be missed!

The workshop leaders

Our workshop leaders have worked with a diverse range of clients, including F. Hoffman-La Roche, PwC, Aviva, UK Cabinet Office, Local Authorities, Further Education Colleges, the Church of England and the National Health Service in England and Scotland.

John Watters is Managing Director of Living Leadership and is the leading authority on Barry Oshry's work in Europe. His consultancy work integrates strategy, leadership and culture, assisting clients to transform their individual, team and organisational performance and better realise their purpose, especially in complex, problematic situations that seem impossible to alter.

Ali Warner is an associate of Living Leadership. She is an accredited trainer in Barry Oshry's Organisation Workshop and has also completed the Power Lab training, an immersive 24/7 seven day training on power and the dynamics of complex social systems. Ali brings an expertise in communications. She trained in brand management at Procter & Gamble, and worked in communications at The Carbon Trust. Ali also works as a music educator and meditation instructor.

Booking your place

The workshop takes place at the Park Inn Radisson, North Street, York, YO1 6JF.

We've worked hard to keep the price low. Thanks to the generosity of our workshop leaders, it's a third of its usual rate. Charges are VAT exempt and payable before the workshop.
